2 REMARKS

3 The abstract, specification, and claims were objected to for
4 lack of "e"s. Applicant requests reconsideration. It is not
5 understood by what is meant by "e"s. The cited references to the
6 "e"s purportedly in the application were checked and no errors were
7 found and the application seems to be in good order. Perhaps the
8 text was garbled at the PTO during scanning. Applicant attaches
9 hereto a copy of the application as originally filed. The
10 application appearing to be in good order, and the claims having
11 been informally allowed, save the traversed objection, applicant
12 requests that the claims be formally allowed.
